Applicant: Kollmann et al.

Appl. No.: 10/615,323

Filing Date: July 7, 2003

Title: SYSTEM AND METHOD FOR AUTOMATICALLY COLLECTING TRACE DETAIL
AND HISTORY DATA

Attorney Docket No.: CA920030064US1

Pub. No.: US 2004/0268314 A1

Pub. Date: December 30, 2004

This is a decision on the request for a corrected patent application publication under
37 CFR 1.221(b), received on November 11, 2006, for the above-identified application

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains a material error, as the publication includes the specification, claims, drawings and abstract of another application.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.¹

The request is dismissed, as the paper was not signed in compliance with 37 CFR 1.4(d)2(i).

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18 (d) and the processing fee set forth in § 1.17 (i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18 (d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system and questions or request for reconsideration of the decision, should be addressed as follows:
